Hello,

When we do the entry to unit J upper, we will try to retrieve that item - if successful will decon, process, and if possible transfer custody to Mr Moran before his departure from STJ this AM. He showed us Auth from the family and provided wall safe combo.

Geoff

>> Hi Geoff and Chris. Medical update : the mother is doing better. The dad and two boys are in comas. The older boy who has been having seizures is no longer having seizures due to anti seizure medicine he is on but he is still in very critical condition. The mom would very much like to get her wedding ring back. Is it possible for u to retrieve it, log it, decontaminate it and mail it to her? I can track down the best address. Tx for all the great work you are going.
